Reasons for Allowance

The following is an examiner's statement of reasons for allowance: none of the prior art of record teaches or suggests the particular circuit topology set forth in the "apparatus for electric welding" of claim 82 or in the "method for electric arc welding" of claim 109. In regard to the "Correction of Named Inventors" filed under 37CFR1.48(b) on 4/6/2004, applicant is advised that Examiner has reconsidered his position on this issue and agrees with applicant's argument set forth in the "Remarks" of the amendment filed on 8/12/2004. The amendment of the claims in the preliminary amendment of this case constitutes a change of claims during the prosecution. The objection to the correction of named inventors as set forth in the Office action mailed on 6/2/2004 is withdrawn. The rejection under 35USC102(e) is likewise withdrawn since the inventor in the patent relied on is the same as the inventor in the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
